[App/Owner Portal](#)

[Boarding](#)

[Dashboard](#)

[Miscellaneous](#)

[Email/App Message Customers](#)

[Order Processing](#)

The following application preferences were added, modified and/or deleted with PetExec 3.7. Many of these application preferences go along with new features that are included in this release. This is a list of all the application preferences added, modified, or deleted. All of these application preferences can be found in Company Preferences > Application Preferences.

App/Owner Portal:

Category was renamed from Owner Portal to App/Owner portal, as a result it is now the first option in the category drop down list:

App/Owner Portal	Disable Deleting Daycare When selected, will generate an error when an owner attempts to delete a daycare.	<input type="checkbox"/>	
App/Owner Portal	Only Show Cameras if In-House When selected, In-House defined cameras will only be available if the pet is signed into the system.	<input type="checkbox"/>	

Boarding:

Category ▾	Preference ▾	Status ▾	Values
Boarding	Disable Boarding Cameras When selected, the "Disable Boarding Cameras" checkbox on the Modify Boarding screen will be checked by default. (When the checkbox is checked, any associated camera links will not show on the owner portal.)	<input type="checkbox"/>	

The descriptions of the follow application preferences were modified for clarity. The behavior has not been changed.

Boarding	Boarding Cancellation Fee When selected, the boarding cancellation service (displayed below) will be added to the owner's cart if the boarding status is changed to "Deleted" within the designated number of hours prior to the boarding's start date and time. A fee is added for each pet scheduled in the boarding appointment. If checked and left blank, a default of 72 hours left will be used. Associated Service (PID 145116): Boarding Cancellation Fee / 20.00 (per pet)	<input type="checkbox"/>	<div style="border: 1px solid black; height: 40px; width: 100%;"></div>
-----------------	--	--------------------------	---

Boarding	Boarding Over Kennel Error When selected enables error checking for kennel availability based on kennel count numbers to prevent overbooking. An error will show when scheduling a boarding, or changing the status to active, if the number of kennels exceeds the availability. If unchecked, kennel availability will not be checked and overbooking will be allowed.	<input checked="" type="checkbox"/>	
-----------------	--	-------------------------------------	--

Dashboard:

This preference will be selected by default.

Dashboard	Include Incident Type Icons with Pet Advisories When selected, Incident Type icons will be displayed with Pet Advisory icons.)	<input checked="" type="checkbox"/>	
------------------	--	-------------------------------------	--

Email/App Message Customers:

1. Category was renamed Email/App Message – Customers related to the new app message feature.
2. The application preference “Disable Boarding Confirmation Emails” was renamed to “Enable Boarding Confirmation Emails” so that is was consistent with the other email options and if checked emails are being sent. The selections of this preference were updated during the update so there is no impact to how this preference behaves for your business.
3. Added the option to send these communications via Email, App Message or both

Maintain Preferences (i)

1 **Category**

Email/App Message - Customers

Filter

Category	Preference	Status	Values
2 Email/App Message - Customers	Enable Boarding Confirmation Emails When selected, automatically sends out the "Boarding - Active/Requested/Waiting List/Pending Deposit" email/App message when a boarding is scheduled. Emails/App messages are also automatically sent when an owner schedules a boarding from the Owner Portal, and can be sent manually in Modify Boarding.	<input checked="" type="checkbox"/>	3 <div style="border: 1px solid #ccc; padding: 5px; margin-top: 5px;"> Email Email App Message Both </div>

Miscellaneous:

Miscellaneous	Require Username & Password When selected, PetExec will require a username and password when adding or modifying an owner.	<input type="checkbox"/>	
----------------------	--	--------------------------	--

Order Processing:

Order Processing	Lock Down Orders When selected, orders will be locked and changes will only be allowed based on the value entered. The value is the number of days, based on order date, that changes will be allowed. 0 will not allow any changes without an override. 1 will allow changes the date the order is created. 2 will allow changes for 2 days, on the order date and the following day, etc. (A value of 1 is recommended to allow employees to process multiple payments on orders.)	<input type="checkbox"/>	<input type="text" value="1"/>
