

PetExec 3.8.2 Feature List

Boarding kennel availability. Boarding Kennel Availability provides an overview of the kennel reservations and is an easy way to see if a boarding reservation can be accommodated.

Boarding Kennel assignments. Boarding Kennel Assignments provides an overview of the available/reserved kennel numbers while also showing the specific kennel assignments.

Contact List. Ability to generate a list of pet owner contact information by purchase data, pet data, owner data, appointment data and more.

Copy Grooming appointment details when scheduling. Ability to copy grooming details (ie service, price, notes, groomer) from a prior grooming appointment to a new appointment with one click when scheduling/modifying a grooming.

Owner Purchase changes – Retail, barcode scanning efficiencies. Added efficiencies when using a barcode scanner so you can easily scan multiple items, add to the cart and checkout.

Reports for Pet Notes and Owner Notes. Ability to see all pet notes and owner notes by signed in pets or all notes.

New utilities – Reset Contract settings and Update Communication settings for all pet owners Packmates can reset signed contract settings and owner communication settings for all of their pet owners. This valuable when updating contract language and want to force their pet owners to resign contracts. Or when they want to check all communication settings for their packmates to they are no longer opted out of emails.

Added packages (daycare, boarding and other) to the employee activity report. Can now track any changes to packages using the employee activity report.

Added owner file uploads to the owner Activity Report. Can now see all pet owners who have uploaded a file in the owner activity report.
