

Examples of Boarding Services in PetExec 3.3

PetExec 3.3 includes the addition of a “Qty/Day” field (quantity per day). The quantity per day number is multiplied by the Service price to calculate the daily total cost for each service selected. The # of pets and/or kennels does not impact the calculation of the boarding cost. The # Kennels field reserves spaces in your kennel count, managing your occupancy. By separating the cost and the kennel occupancy into two separate fields PetExec provides more flexibility.

Let's break it down!

Qty/Day – **Quantity per Day** is the ‘multiplier’ so this would be the total cost per day. For example if the service is Happy Dog Small Suite – Boarding 1 Dog which you price at \$20.00, and you put 1 in the Qty/Day field:

1 service \$20.00 X 1 (Qty/Day) = \$20.00 per day

Select	Service	Qty / Day ⓘ	# of Pets ⓘ	# Kennels ⓘ
<input type="checkbox"/>	Happy Dog Small Suite - Boarding 1 Dog (Happy Dog Small Suite / \$20.00)	1	1	1

Select Service@ \$20.00 X 1 (Qty/Day) = \$20 per day

of Pet – **Number of Pets** is used for the count and does not reflect total cost.

of Kennels - **Number of Kennels** is the number of kennels/rooms/spaces reserved This is for your kennel count/managing occupancy and does not affect the price.

Example 1: If pricing is based on kennel size/type and pets share kennels your services may look something like and these selections would allow you to **board 2 Dogs** in the **same kennel/suite** with a discounted rate for the second pet.

Qty/Day = 1 The daily price for the selected service will be 1 X \$40 = \$40 per day.

of pets = 2 This matches the number of pets selected to board and is reflected as 2 pets in the boarding count report.

of Kennels = 1 Two pets are sharing one kennel, so we entered 1. PetExec will reserve 1 Happy Dog Medium Suite for this appointment.

Boarding Services

Last Scheduled Boarding

Boarding ID 3052001
 Dates 10/06/2017 - 10/08/2017
 Pets Sparky, Ajax
 Services Happy Dog Small Suite - Boarding 2 Dogs

Directions: Select the appropriate services for the boarding. The "Qty/Day" (quantity per day) is required and is used to calculate the daily price of the boarding. The number of pets indicated is used to calculate the Boarding Count. At least one kennel must be reserved. Green highlighted rows indicate that the # of kennels entered are available for the entire length of the boarding. Red highlighted rows indicate that the # of kennels entered are unavailable for at least one day of the boarding.

Per Day Cost = Qty/Day * Price of Service

Select	Service	Qty / Day ⓘ	# of Pets ⓘ	# Kennels ⓘ
<input type="checkbox"/>	Happy Dog Small Suite - Boarding 1 Dog (Happy Dog Small Suite / \$20.00)	1	1	1
<input type="checkbox"/>	Happy Dog Med Suite - Boarding 1 Dog (Happy Dog Medium Suite / \$30.00)	1	1	1
<input type="checkbox"/>	Luxury Suite - Boarding 1 Dog (Luxury Suite / \$35.00)	1	1	1
<input type="checkbox"/>	Happy Dog Suite XL - Boarding 1 Dog (Happy Dog X-Large Suite / \$45.00)	1	1	1
<input type="checkbox"/>	Happy Dog Small Suite - Boarding 2 Dogs (Happy Dog Small Suite / \$30.00)	1	1	1
<input checked="" type="checkbox"/>	Happy Dog Med Suite - Boarding 2 Dogs (Happy Dog Medium Suite / \$40.00)	1	2	1
<input type="checkbox"/>	Happy Dog Suite XL - Boarding 2 Dogs (Happy Dog X-Large Suite / \$55.00)	1	1	1
