

PetExec web developers guide

PetExec Customer Login

The login URL is the same for both administrators and customers:

<https://secure.petexec.net/login.php>

You can use the URL as a link or to point to a graphic / button in the navigation.

Note: Due to PCI compliance guidelines, we do not recommend embedding the login in an iframe. Instead, we recommend embedding a login button on your website that redirects to the primary PetExec login screen.

Packmate Login

Create your own custom login page

Alternatively, if you would like code to use to wrap your design around your own login page use:

```
<html lang="en">
<head>
  <meta charset="utf-8" />
  <title>Untitled</title>
</head>
<body>
  <form action=https://secure.petexec.net/remotelogin.php
method="POST">
    <table>
      <tbody>
        <tr>
          <th>Username:</th>
          <td><input type="text" name="username"
id="username" value="" tabindex="1" /></td>
        </tr>
        <tr>
          <th>Password:</th>
          <td><input id="password" type="password"
name="password" value="" tabindex="2" /> &nbsp; <a href="https://
secure.petexec.net/lostPassword.php">forgot?</a></td>
        </tr>
      </tbody>
    </table>
    <div><input type="submit" name="submitButtonName"
id="submitButtonName" value="Login" tabindex="3" /></div>
  </form>
</body>
</html>
```

Create a way for customers to register online

Login to PetExec. Go to Company Preferences> Application Preferences> Miscellaneous Tab. Scroll to the preference: **Add New Owner URL**. Use this distinct link to place on your website and owners may register themselves securely.

PetExec Training New Owner Registration

Create an Owner for PetExec Training

Directions: Fill out the form. Once created, you will be able to log into the system using the credentials provided here. This form requires Javascript and Cookies to be processed. Please enable before continuing.
Note: Field names with a * are required.

In the event this system detects that you already have an account, you can reset the login credentials by using our Reset Password function, which will email the information to the requested email address.
